

PANORAMIC

GL Configuration

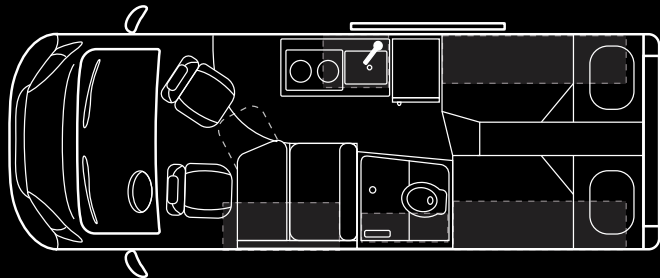

**A revolution in the world of
compact recreational vehicles**

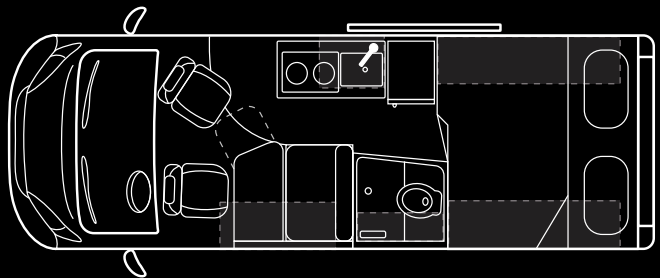

RAM Promaster 3500, Pentastar 3.6 L, 280HP

Technical specifications

			Cargo space volume	750 L	200 gal US
Overall height	2.9 m	10'	Fresh water tank	131 L	35 gal US
Overall length	6.4 m	22'	Grey water tank	91 L	24 gal US
Overall width	2.59 m	8' 1"	Black water tank	61 L	16 gal US
Payload	625 kg	1370 lbs	Twin beds dimensions	6'2" and 5'10" x 30"	
Cargo space dimensions	49" x 35 1/2" x 28"		Longitudinal bed dimensions	6'2" x 74"	

Twin beds

Longitudinal bed

When quality rhymes with escape

Panoramic RV's passionate teams of engineers and designers have designed the all-new Panoramic GL recreational vehicle to allow you to explore further with complete autonomy.

Let there be light!

The large windows that gave the Panoramic its name and popularity are still present in its GL configuration. The abundance of light throughout the interior provides a greater sense of freedom as well as an experience in harmony with nature.

The pinnacle of ergonomics

From the dining area to the kitchen layout and the innovative design allowing for two rear bed configurations, our innovative approach to ergonomics makes the Panoramic GL a unique model. On each outing, you'll notice that every detail has been carefully considered to maximize the Panoramic GL's space and push the boundaries of your enjoyment.

- Easily transform the space into a dining room by rotating the driver and passenger seats 180°.
- Share a meal for four thanks to the extendable table.
- Transform the space into a movie room thank to the adjustable TV stand.
- Transform the table into an additional bed or move the table to create maximum seating space with our clever sliding bracket system.

Versatile bedroom

One of the major innovations of the Panoramix GL is its permanent modular bed with two possible configurations: a longitudinal bed configuration, as well as a twin bed configuration. Both configurations allow each occupant to have their own schedule, without having to disturb the other when getting in or out of bed. No need to get out of bed to adjust the lights, heating, and air conditioning, thanks to the conveniently located controls at the head of the bed.

Chefs, let's eat!

The kitchen area will charm the most demanding chefs and allow them to give free rein to their culinary inspirations. The induction stovetop, the 3.8 cubic foot upright refrigerator, a conveniently located pantry near the refrigerator and the deep sink integrated into the high-end countertop, will help you cook up your most delicious culinary creations.

Privacy and comfort

The roll-down doors of the Panoramic GL's restroom offer privacy and comfort with minimal waste of space. Our teams of engineers and designers have once again innovated by creating a functional and ergonomic space that rivals the shower rooms of the largest recreational vehicles.

Unlimited autonomy

We share your vision of autonomy and your thirst for freedom; this is what guides the Panoramic RV teams when designing and manufacturing of Class B recreational vehicles, among the most autonomous on the North American market.

The Panoramic in GL configuration is equipped with solar panels, power inverter and lithium batteries, in addition to automatic electrical management systems allowing you to explore without compromise.

Excellence in RV Manufacturing

Made for Enthusiasts by Enthusiasts

Our attention to every detail at every step of the manufacturing process reflects our intention to provide a superior product and an unparalleled experience. Our passion is visible both in the choice of our components and on the faces of the people who assemble them.

Turn your dream into reality...
