# THE NATURAL EVOLUTION OF PANORAMIC COMFORT

## SPACIOUS LIVING AREA

The front seats swivel to create a dining area or a small lounge. The extendable table can seat up to four people and can also be converted into an extra bed. The skylight provides ample natural light and efficient ventilation.

## BEDROOM COMFORT

With its slatted bed base and orthopedic mattress, the 74" x 57" bed offers optimal comfort. Lighting, heating and air-conditioning controls are conveniently located at the head of the bed, allowing you to adjust the temperature or activate the water heater without having to get up.

## A FIRST-CLASS BATHROOM EXPERIENCE

The Panoramic G bathroom combines ingenuity and elegance to create a refined, private space.

The tambour-style sliding doors, molded fiberglass shower base and porcelain toilet come together in a watertight and harmonious design.

A thermostatic faucet ensures stable, precise water temperature, adding a thoughtfully engineered level of comfort, worthy of the most refined restrooms.

## BUILT FOR EXTREME CLIMATES

All Panoramic models are constructed using high-performance composite insulating materials. In addition, rigorous testing and the elimination of thermal leaks ensure optimal energy efficiency, allowing you to use the Panoramic G in both the intense heat of summer and the coldest winter conditions without compromising comfort.

## SURPASSING EXPECTATIONS THROUGH INNOVATION

The large windows typical of Panoramic Class B RVs flood the Panoramic G with light, creating an open space that feels connected to the outdoors.

At the front, the kitchen, dining area and lounge form a versatile space for cooking, working or relaxing. At the rear, the modular permanent bed provides ample space and everyday comfort, while the storage space below handles plenty of cargo.

The bathroom, featuring high-end components, completes an optimized layout for ease of movement. The Panoramic G is a model designed to be practical, bright and comfortable.
